

YOUR HELP IS NEEDED PLEASE

I attended the Patient Participation Group meeting of the Byfield Medical Centre earlier today. We URGENTLY need your help to get the planning application for a new surgery over the line. The landowner has now accepted he will pay the costs of traffic lights at the five-road roundabout, so taking away the objections of the Northants Highways Authority. We have lost a year in planning because of the pandemic, but this should be the game changer.

How can you help?

Write to the Daventry Planning Officer Mrs Chung Phillips supporting the planning application, no later than 20th January please.

It does not need to be a long note, simple express your support in recognizing the need for a new surgery, ideally adding the names of all the family. You need to quote the planning application # DA/2017/0826

Please do it soon, write to Mrs Chung Phillips at the email address below;

cphillips@daventrydc.gov.uk

You will notice by the planning # this has been 4 years in gestation! And remember please you don't need to be on the list at Byfield Medical Centre to support the application!

Many thanks

John Eustace
